

II. USB Combo Lock Controller

This HPL PRO device—"USB Combo Lock" is a computer security system in compliance with the rule of KISS (Keep It Simple, Stupid). The application of innovative USB undetachable technology will enable the user to enforce turn off the computer, combine other peripherals to protect your computer together, and lock the PS/2 interface and Windows quickly and efficiently.

- ✓ Different unlock levels - low, medium and high.
- ✓ Products: HPL01 USB Windows Lock 、HPL01 PRO USB Combo Lock
HPL02 USB Infrared Windows Lock 、HPL02 PRO USB Infrared Combo Lock
HPL05 USB 2.0 Flash Drive Plus Windows Lock 、HPL05 PRO Combo Lock USB 2.0 Flash Drive
- ✓ USB Undetachable Connection Technology enables to combine N+1 peripheral or control circuit, to prevent any hardware being detached ($N \geq 0$).
- ✓ Provides permanent protection, no need worry about the product is lost or damaged.
- ✓ Supports 32 bit windows 2000/XP/2003/Vista.
- ✓ Supports"PS/2 lock" , "Windows lock", "Time lock", "TCP/IP & RDP lock", and"Detach lock".
- ✓ CE/FCC certified.

HPL Series Compare

Model	HPL01	HPL02	HPL05
USB speed	HID/V1.1	HID/V1.1	Mass Storage/V2.0
Flash drive	NO	NO	YES (512MB~8GB)
Shutdown/Hibernate	YES (Shutdown via button)	YES (via remote controller)	NO
Remote control	NO	YES, Distance 5cm~7m	NO
PS/2 Lock	Disable PS/2 Mouse /Keyboard	Disable PS/2 Mouse /Keyboard	Disable PS/2 Mouse
Relief Windows Lock	1.Enable PS/2 keyboard once the button is pushed 2.Via remote computer	1.Using remote controller 2.Via remote computer	1.Using F4 key of PS/2 keyboard 2.Via remote computer
Loss or damaged (Temporary lock relief)	1.Using USB Mouse and PS/2 keyboard to unlock 2.Via remote computer	1.Using USB Mouse and USB keyboard to unlock 2.Via remote computer	1.Using PS/2 keyboard to unlock 2.Via remote computer
Combo Lock and power management design	YES (HPL01 PRO model)	YES(HPL02 PRO model)	YES (HPL05 PRO model)
Specification	1.5V,Bus Power,100mA 2.Weight: 8.5g 3.Temperature: -10~75c 4.Size: 58.8*20*12.5mm 5.Lifetime of push button: 50000 cycles	1.5V,Bus Power,100mA 2.Weight:10g+Remote 30g 3.Temperature: -10~60c 4.Size: 58.8*20*12.5mm 86*40*12.4mm 5.38KHZ,18key IR Remote, Rubber,CR2025 3V battery	1.5V,Bus Power,100mA 2.Weight: 10g 3.Temperature: -10~75c 4.Size: 67.8*17.2*7.7mm 5.More than 10 years data retention

I. Plug-and-Play Locking Controller

Peripheral control is getting important nowadays. Plug-and-Play locking controller is an intelligent protecting system for computer can manage peripheral's I/O centralized. The ICs for locking peripheral's I/O and preventing detach are built in. Equipped with unique "Power+PS/2+USB" peripheral lock technology and the advanced Undetachable technology. With a remote controller, the innovative Plug-and-Play Lock technology allows the computer to be turned on/off, reset, set time for power on/off automatically \ avoid using PS/2 mouse, keyboard, and any USB peripheral without authorization. Undetachable technology enables to lock Windows and PS/2 interface simply and efficiently so as to prevent any control circuit being detached.

- ✓ Products : SPL Series Internal Model and IOL Series External Model
- ✓ Peripheral's I/O lock IC can be built in motherboard or peripheral
- ✓ CE/FCC Certified

SPL Series USB+PS/2+Power Plug-and-Play Locking Controller

Model		SPL01	SPL02	SPL04	SPL05	SPL06	SPL07
ATX Power Control	Power	YES	YES	YES	YES	YES	YES
	9 levels time setting	30X	60X	30X	30X	60X	60X
	Reset	YES			YES		
I/O peripheral attach control	PS/2		YES	YES	YES	YES	YES
	U+P			YES	YES	YES	
	USB			1	1	1+2	2+2
Detached lock	Auto shut down		YES				
	Windows lock + PS/2 lock			YES	YES	YES	YES
Prevent guessing password		YES	YES	YES	YES	YES	YES
Key applications on PCs		Enter password to turn on/off the PC by remotely	Enhance control of PS/2 key board & mouse	Enhance control of PS/2 & USB keyboard & mouse	Control PS/2 & USB keyboard & mouse safely	Increase 2 ports of USB peripheral control	5V PCI, V2.2 interface, 4 ports of USB2.0 and PS/2 control

IOL Series USB+PS2 Plug-and-Play Locking Controller

Model		IOL03	IOL04
I/O peripheral attach control	PS/2	YES	YES
	USB	4 ports control independently	4 ports control independently
Detached lock (Fixed combo lock technology)	Windows lock + PS/2 lock	YES	YES
	Auto shutdown	YES	YES
	Power management	YES	YES
Prevent guessing password		YES	YES
Assign Combo Lock		YES	YES
AC adaptor		NO	YES(5V, 2.5A)
Key applications		External, easy for installation, suitable for PC and NB, manage PS/2 & USB centralized	Supply 500mA for every USB port
